This is an easy way to come to Shenzhen from HK Airport, if the schedule suits you. There are signs all over the place inside the Airport showing you how to get to the Ferry Transfer Desk after you arrive at the airport. It is located just before the immigration processing area as well as before the luggage pickup area. Taking the ferry to Shenzhen will by-pass entering Hong Kong altogether from the immigration point of view and the ferry will take you from the airport directly into China via the ferry port called Shekou in Shenzhen. After you purchase the ticket, you can give them the tags of your checked luggage and they will transfer them for you onto the ferry. It will cost HKD 220 for this 30-40minute journey.

After you arrive in Shekou, pick up your checked luggage and do the immigration and custom processes. Then, go outside to take a taxi to your hotel. Please go to take a public taxi with taxi sign marked on the car. It costs around RMB 60-80 from Shekou port to the fairground by taxi.
